He called me and expressed his concerns. I will share those details with the RRC for resolution if that option is considered or exercised.

I received a call from Steve Johnson, University Virgin Islands regarding holding a partial cylinder of methyl bromide from the methyl bromide incident. He wanted assurance that UVI wouldn't be held liable for disposal of the cylinder before accepting it for storage. I referred him to Geoffery Garrison and gave a few other superfund contacts for him to contact regarding the cylinder.
